CAREER OBJECTIVE

To attain a suitable professional employment compatible to my qualification and skills that offer professional growth while being resourceful, innovative, flexible and contribute towards growth and success of the organization.

TECHNICAL SKILLS

- **Programming Languages:** C, Java, JavaScript(Basics), Python
- **Database Management Systems**: MySQL
- **Others:** HTML, CSS, Bootstrap 4, Android, Big Data(Hadoop, Hive, Hbase, Pig), Git

EXPERIENCE

Mu Sigma, Bengaluru – Apprentice Decision Scientist
SEPTEMBER 2020 – NOVEMBER 2020

- Solving problems of clients that Mu Sigma had solved a few years back. The training involves various activities like understanding the given data, representing it in the form of charts, forming ideologies/patterns and recommending better strategies to handle their problems.

Surya Software Systems Private Limited, Bengaluru – Intern
FEBRUARY 2020 – APRIL 2020

- Worked on Presto and PostgreSQL. Establishing a connection and executing queries between PostgreSQL and Presto over a Docker Platform.
- Undertook an Udemy course on Front End Web Development (mainly React) and created basic projects on it.

PROJECTS

- **SLAM FITNESS using Java, JavaFX and Swing -** Slam Fitness is a platform that permits administrators and trainers to keep track of clients and even potential clients. A Gym administrative management system which was made using concepts of Java, JavaFX and Swing.
- **TRASH WARRIOR using Android -** An app which initiates the habit of waste disposal system in India. Users get rewarded for the waste the segregate and dump.
- **CARS24 usingphpmyadmin -** A second hand cars database management system was made using phpmyadmin to allow the sellers and buyers to connect more easily without the need of brokers. The system makes it easier for both the parties without additional brokerage charges.
- **RISTORANTE CON FUSION using Bootstrap 4 -** A website created for a famous restaurant in Hong Kong which is created using Bootstrap 4.
- **LORVENT using Bootstrap 4 -** A random website template which includes most of the HTML, CSS and Bootstrap 4 features.
- **MY PORTFOLIO -** It is a collection of my work representing a selection of performance.
- **AMBILIFE -** It deals with automation of traffic signals to reduce ambulance delays. Implemented this project in three different ways i.e. using IOT, Machine Learning and a Mobile App.
